

Dedicated Internet Access

Benefits

- » Globally redundant IP network
- » Low latency regional performance
- » Extensive regional peering
- » Provisioning within 24 hours

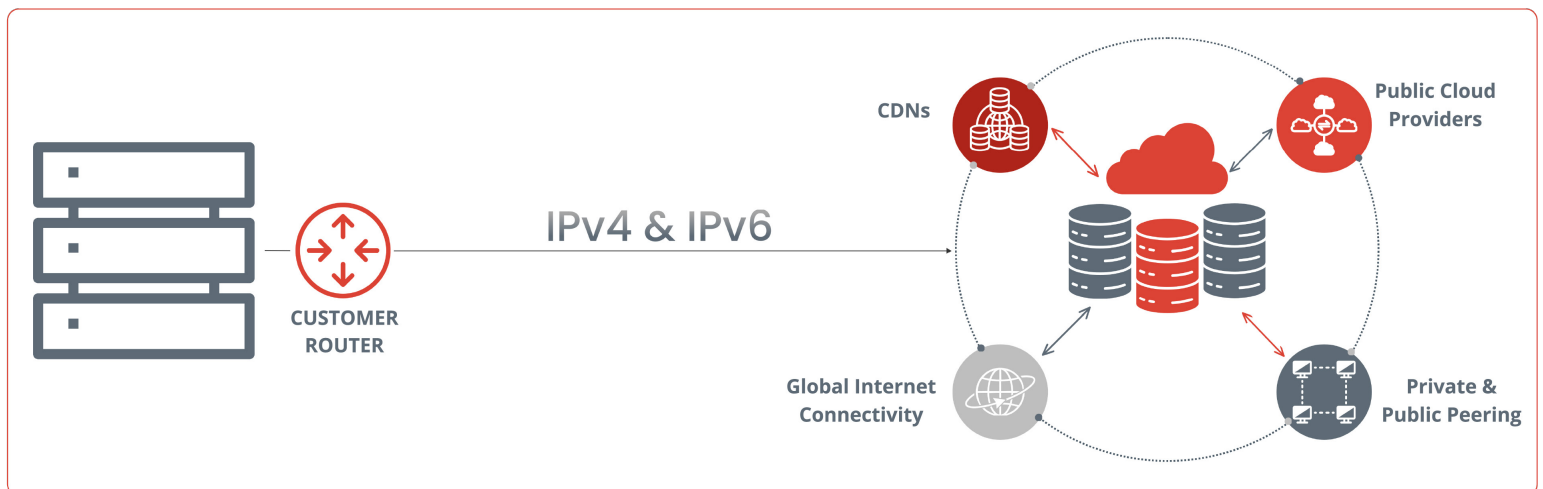

Features

- » LACP, MLAG and Virtual IP high availability options
- » 99.99% availability SLA
- » 95th percentile burst metering

Specifications

Bandwidth	100Mbps-100Gbps
Interfaces	1GE, 10GE & 100GE
Protocol	IPv4 & IPv6
IP allocations	IPv4 & IPv6 allocations
